

## Continual Professional Development Webinar 2021

### Dr Jeff Donovan

#### Donovan Hair Clinic

Dr. Donovan is a US and Canadian board-certified dermatologist, specialising in the treatment of hair loss. He received his medical degree from the University of Ottawa in 2004, and conducted his post-graduate clinical training in Dermatology, and PhD studies in molecular biology at the University of Toronto. He teaches and lectures nationally and internationally, and is active in hair loss research. His current research interests include hair loss in women, scarring alopecia, ethnic hair disorders, alopecia areata and hair transplantation. He co-founded Okavana Laboratories in 2013, which is a company committed to developing better products for hair care and to developing new treatments for individuals affected by hair loss. He is currently the President of the Canadian Hair Loss Foundation, a non-profit organisation which supports education and research in hair loss.
